

## Switch

```
#import <Foundation/Foundation.h>

int main ()
{
    char grade = 'B';

    switch(grade)
    {
        case 'A' :
            NSLog(@"A!\n" );
            break;
        case 'B' :
        case 'C' :
            NSLog(@"B\n" );
            break;
        case 'D' :
            NSLog(@"D\n" );
            break;
        case 'F' :
            NSLog(@"F\n" );
            break;
        default :
            NSLog(@"Invalid grade\n" );
    }
    NSLog(@"Your grade is %c\n", grade );

    return 0;
}
```
