

## Break out of for

```
#import <Foundation/Foundation.h>

int main ()
{
    int i;
    for (i = 0; i < 5; i++)
    {
        NSLog (@\"The value of i = %i\", i);
        if (i == 2)
        {
            break;
        }
    }

    return 0;
}
```

The code above generates the following result.

**The value of i = 0**  
**The value of i = 1**  
**The value of i = 2**
